

Dr. Ted Groom will give a presentation on the History of The Little Red Schoolhouse on May 15th at 7:00 PM at the Community Room of The Smith Library in Northford.

Northford is the site of the oldest one-room schoolhouse in New Haven County and the 4th oldest in the state of CT. It was located on Forest Road where Nature Works is now.

There were 7 School Districts in North Branford in the early days so that the children did not have to walk too far to school.

Come and learn the history of the Little Red Schoolhouse and of the other schools. Several of these schools still exist but have become incorporated into modern houses or businesses.
